

Genetic Genealogy Family

FamilyTree DNA is the pioneer in providing DNA testing for genealogists. Your ancestors left clues to your genealogy in you and other descendants. Unlock the clues with DNA testing.

Search Your Surname

With thousands of people tested, your Surname could already be part of a DNA project. If not, you may qualify to start a Surname Project. FamilyTree DNA provides a full spectrum of management tools for those interested in focusing on a surname or subset of a surname to determine who is related to whom.

Looking for missing relatives? It's time to try the latest technology to solve your genealogical puzzle

Family Tree DNA Allows You To:

- Determine if two people are related
- Determine if two people descended from a common ancestor
- Confirm your FamilyTree
- Find out who with your surname is related
- Prove or disprove a research theory
- Find missing relatives
- Verify possible Jewish and Cohanin ancestry
- Obtain clues about your ethnic origin
